

Fun without the fuss

Some things are better when they're uncomplicated. A sunny afternoon. Open water. A reason to get outside. That's exactly where the VX-EU shines: removing the barriers between you and a good time so you can focus on the rush of open water, the spray on your face and whatever adventure lies ahead.

One minute you're crossing open water. The next you're heading towards a distant island simply because it's there. With room for up to three riders and intuitive RiDE® technology, it's remarkably easy to find out what's on the other side of that wave.

L-Mode is there when you'd like to ease yourself in, making it easy to build confidence before unlocking everything this WaveRunner has to offer. Before long, the question stops being "can I?" and becomes "what's next?"

- 3-cylinder, 4-stroke TR-1 Yamaha Marine Engine
- Learning Mode
- Revolutionary RiDE® system for intuitive control
- 114 L storage capacity
- Multifunction LCD screen
- Multi-mount accessory system
- Excellent ergonomics with comfortable seating and deep footwells
- Tow hook and large integral mirrors

See water, get going

The water has a habit of making ordinary days look a lot more interesting. Whether it's an impromptu blast across open water, a day spent chasing wakes or loading up a couple of friends to see where the shoreline leads, there are plenty of ways to enjoy yourself. Good job the VX-EU is ready for every single one.

One rider, three riders, first-timers or seasoned regulars. Nobody feels out of place here. From cruising the coastline to unleashing your inner child at the first sign of open water, the approach is refreshingly simple: pick a direction, twist the throttle and see where the day takes you.

RiDE® technology helps keep things feeling smooth and intuitive, while L-Mode is there when a gentler introduction sounds appealing. Add a handy multi-mount system and watertight glovebox, and you're already halfway to whatever's over the horizon. The water can take care of the rest.

Tow hook and dual mirrors

One minute you're cruising. The next, somebody spots a towable and starts getting ideas. The integrated tow hook is ready for exactly that sort of behaviour, while dual mirrors help you keep tabs on the chaos unfolding behind you.

Ergonomic seat and knee grips

The right seat can change the shape of a day. Supportive seating and integrated knee grips help create a secure, comfortable riding position that feels every bit as good a few hours later as it did when you set off.

Learning Mode

Whether you're finding your feet or simply taking things easy, L-Mode offers more relaxed power delivery at the touch of a button. Because confidence is a wonderful travelling companion.

LCD display

No distractions. No unnecessary complications. Just clear, easy-to-read information exactly where you need it, leaving more time for spotting the next stretch of water that looks far too tempting to ignore.

3-cylinder, 4-stroke TR-1 Engine

The award-winning TR-1 engine delivers quick acceleration, impressive top-end performance and excellent fuel economy. Fast enough to keep things interesting, efficient enough to keep them going.

Engine

Engine type	3-cylinder, 4-stroke TR-1 Yamaha Marine Engine
Displacement	1049 cc
